## EUROPE

### Baltic Countries

While preaching the gospel in Tallinn, we shared *The Mystery of Human Life* with a contact and she said she was open for more fellowship. That evening she came to our meeting and we read chapter 2 of *Basic Elements of the Christian Life* together. After reading it, she was touched that she could have personal conversations with the Lord. She also said she felt at home with us.

During our time in Riga, we met a student who was open to receiving the Lord and having another time with us. In our second meeting with this student, we went over the second chapter of the *Basic Elements of the Christian Life*. The student had a lot of questions summarizing what we read and repeating it back to us. Sadly, we ran out of time and could not finish the chapter. However, he asked if we could continue the next day and was impressed from the reading at how simple it was to receive the Lord.
